Catalogue to accompany an exhibition for the 8th
International Conference on Oriental Carpets,
Philadelphia, 1996

This book records unique exhibitions of over 550
exemplary Oriental carpets on view during the Eighth
International Conference on Oriental Carpets in
Philadelphia, of which 331 are published here. These
collections represent one of the most extensive
exhibitions ever to be organized on this subject
anywhere in the world. Loaned by museums and private
collectors and dating as far back as the ninth century, the
weavings represent traditional cultures in Egypt, Anatolia,
Iran, the Caucasus, Afghanistan, Central Asia and
Northern Africa. This work is splendidly illustrated
throughout with 331 striking photographic reproductions
in full colour.
